Introduction

About PSI – The Pharmacy Regulator

The Pharmaceutical Society of Ireland (PSI) is a public body established in law to protect the health, safety and wellbeing of patients and the public by regulating pharmacists and pharmacies in Ireland.

Our principal function is to ensure patient safety and public protection. We are committed to carrying out our work independently, ethically, and transparently. The Pharmacy Act 2007, as amended, established the statutory role and the responsibilities of PSI as the pharmacy regulator, which include:

- Registration of pharmacists, pharmaceutical assistants and pharmacies in line with statutory requirements;
- Setting standards for pharmacy education and training at undergraduate and postgraduate level;
- Ensuring all registered pharmacists are undertaking appropriate continuing professional development (CPD);
- Promoting good professional practice by pharmacists by raising standards and sharing information for the benefit of patients and the wider health system;
- Conducting fieldwork to assess how pharmacies comply with pharmacy and medicines law and, where necessary, acting to address poor performance and/or unsafe practices;
- Considering formal complaints made against a pharmacist or a pharmacy;
- Providing advice, support and guidance to the public, pharmacy profession and Government on pharmacy care, treatment and services in Ireland.

These functions form the basis of the work we do to promote and assure public confidence and trust in pharmacy practice and pharmacy-delivered care and services in Ireland.

Governance

The PSI is a public body which is independent in the exercise of its statutory functions. For public accountability purposes, the PSI operates under the aegis of the Department of Health.

The PSI is governed by a 21-member Council, and each member is appointed by the Minister for Health in accordance with the provisions of the Pharmacy Act 2007. The Registrar/Chief Officer is responsible for the day-to-day operation of the PSI.

Our Vision, Mission and Values

Our Vision

Safe and effective pharmacy care supporting the health of our communities.

Our Mission

We assure patient safety and public trust in pharmacy through effective regulation.

Our Values

Our values underpin how we deliver on our mission. They guide our behaviour, the expectations we set ourselves, and the experience of others who engage with us. They provide evidence as to our commitment to equality and human rights in how we fulfil our role.

Our values ensure that we achieve the objectives of the organisation in ways that are properly accountable and which meet the high standards expected of public bodies and of the public servants who work within them.

We are committed to carrying out our work independently, ethically, and transparently. Our main goal is to assure public trust in pharmacy through effective regulation. We plan to advance the achievement of this goal through actions under three strategic objectives set out in the [PSI Corporate Strategy 2025 – 2028](#), which is available on our website.

More information about our role and the work that we do is available on our website, www.psi.ie.
